

Liberty Vault Investments — Transparent Fee Breakdown

At Liberty Vault Investments, we believe clarity builds confidence. That's why every fee is explained openly, so you always know what you're paying for and why. Instead of hidden or confusing charges, our fees are designed to cover real operational costs such as trading execution, blockchain settlement, and secure asset custody, while keeping everything fair and competitive.

1) Account and Platform Fees

Fee Type	Amount	Why This Exists
Account Setup Fee	\$0	Creating an account is free. No surprise onboarding charges.
Monthly Maintenance Fee	\$1 (waived for active traders)	Helps maintain servers, security, and support.
Inactivity Fee	\$0 (after 12+ months no activity)	Account may be secured but no penalty charged.

In short: If you're using your account normally, you are unlikely to pay any platform fees at all.

2) Trading & Execution Fees (By Asset Type)

Crypto Trading

* Maker Fee: 0.10% * Taker Fee: 0.20% * Optional Priority Execution: +0.05%

Stocks & Equities

* Commission Range: \$0–\$0.99 per trade (Tiered pricing favors active traders)

Real Estate / REIT & Tokenized Property Funds

* Annual Fee: 0.50%–1.00% AUM * Entrance Fee: 0.25%

Commodities (Futures, ETFs, Tokenized Assets)

* Trading Fee: 0.10%–0.30% * Storage/Roll Fee: 0.05%–0.20% annualized

3) Crypto Network & Gas Fees (Blockchain-Specific)

When you send or receive crypto, the blockchain network itself charges a fee — this is not charged by Liberty Vault Investments. We simply pass through the real gas cost plus a small processing fee for secure routing and settlement.

* Gas Cost Pass-Through: 100% of the actual blockchain gas used

* Processing Fee: 0.05%–15% (depends on network traffic)

Before confirming a transaction, you'll always see the estimated gas cost, processing fee, and total — no surprises.

4) Custody & Security Fees (Only for Certain Accounts)

* Custody Fee: 0.10%–0.30% of assets in secure storage

* Optional Insurance Coverage: 0.02%–0.10% annually

Think of this like paying for a safe deposit box — only if you want the extra protection.

5) Advisory & Managed Portfolio Fees

* Flat Advisory Fee: 0.25%–0.50% annually of assets under management

* Optional Performance-Based Fee: Only charged when your portfolio outperforms benchmarks.

■ In Simple Terms

Everyday users pay little or nothing outside of normal trading. Crypto transactions may include blockchain gas fees — not charged by Liberty Vault Investments. Extra security, real estate, or managed services fees only apply if you choose them. Our goal is fairness, clarity, and full transparency.
